The Hancock County Chamber of Commerce in a letter to the Bay St. Louis Commission Council dated November 28, 1962, has pointed out that "our community is urgently in need of a well-trained, alert, and aggressive volunteer fire department." The letter concluded with an earnest recommendation "that steps be taken at once to provide the community with a volunteer fire department of which it may be justifiably proud." The volunteer unit would in no way interfere with the present three-man paid staff.

Mayor John Scaddie to whom this letter was presented stated that the Council had at various times discussed this matter and that efforts had already been made to organize such a volunteer fire fighting unit but that such efforts had thus far proved unsuccessful.

Lucien Kidd, Civilian Defense Director for Hancock County, stated that he has been working on plans for a civilian defense fire fighting unit which could also be used as a community volunteer fire department.

Mr. Kidd's plan calls for the formation of a 10-man unit in each of the four wards within the community. The idea of such a plan, says Mr. Kidd, is that in event of the outbreak of fire in any location within the city boundaries trained personnel could be more quickly recruited.

The Chamber of Commerce assumed both Mayor Scaddie and Civilian Defense Director Lucien Kidd, that it was ready to assist in any way possible with the organization of a volunteer department.

## Local Hunters

Local hunters the quail and mosquitoes are plentiful out in the marshes. Don't kid yourself, mosquitoes are prevalent the year round. Ask hunters who know.

August Rauxel, August Vassalli, Nicky Rauxel and David Carter reported getting a few ducks and geese out in the marshes.

There will be a hot time this Saturday night Dec. 8th at the Pass Christian Golf Club when the annual Christmas party will be held at the club house. Better be on hand.

Hosts will be the Wendell Watsons and the Kenneth Watsons.

John Longo and Buddy Dufour were telling us of the fishing they are doing. They are old heads at that sport.

The Shamrockers at local pleasure club enjoyed a spaghetti supper Monday, Dec. 3, at the Knock Knock Club with Frank Trapani as host. The club meets every three months for supper.

Mr. and Mrs. Trapani were complimented on the excellent meal served to the following members: John Wilkerson, (Pres.) Buck Kimball (V. Pres.) Vernon Bermond (Treas.) Gus Aime (Sec.) Harold Carver, Ganu Maurigi, J.

The above also applies to hunting. With the duck and goose seasons open the lack of these birds is another question. According to

Three other members were unable to attend.

Louisiana's water fowl guides are allowed to take a daily bag limit of ducks, according to D. Young Jr., director for the state's wildlife and fisheries commission. The paid guide must have a valid Louisiana hunting license and duck stamp affixed and signed.

In previous years paid duck guides were not able to take ducks while guiding.

WASHINGTON - Sheep have two skins separated by a layer of fat. The inner one produces hair and wool grows on the outer one.

Jerry Gordon passed through the Bay Tuesday and mingled with friends.

Squirrel hunters report fair hunting just now. There seems to be quite a few squirrel in the woods. Bay St. Louis has its share also. Off limits to hunters.

It's always a pleasure to go into the Flamingo Restaurant and

**PREVENTORIUM VACANCIES FOR 23 CHILDREN IN STATE**

For 27 "near sick" week or underprivileged children, the Preventorium at Magee represents a chance to grow into adulthood without falling to disease. But somewhere in the state, there are 27 youngsters equally susceptible to disease who could be - but are not - using the Preventorium, which has a 50-child capacity.

The Preventorium primarily does not give medication, but works to give the children the healthiest physical environment possible. Diet, exercise and recreation are organized for health-building.

School bells ring daily during the week-day for the children here. Teachers are fully accredited. Often school determines length of stay, which is usually 3-6 months, but can extend to a year if school gets well underway for the kids, who get in by doctor's recommendation, and pay \$7.14 per week, according to ability to pay. Charitable organizations send some, and counties send some. But right now, they aren't sending enough.

**YOUNG PEOPLE CALL MEET ON CONSTITUTIONAL GOVERNMENT**

Mississippi's leadership of young people interested in preserving the constitutional form of government in the United States and its national security will convene at the State Office Building in Jackson, Saturday, December 8, at a rally designed to interest other young people and state business and legal leaders in steps that can be taken by young people. Highlighting the rally will be a speech on the theme "Youth Can Prevent America's Collapse", by U. S. Senator John C. Stennis at 11:15 a. m. The organization sponsoring the rally is the Patriotic American Youth, a non-partisan, newly-formed group of high school and college students of Mississippi who want to develop active students into informed and learn and expose the truth regarding communism, its history, background, purposes and fallacies.

Youth leaders of P. A. Y. will present a plaque to Governor Ross R. Barnett at 11 a. m. in appreciation of his recent efforts to maintain constitutional government and his national statesmanship as demonstrated at great personal hazard and sacrifice.

According to Steven Beach, III,

Mrs. Albert Kuehn and McCloskey decorating committee, reported on the program.

The new slate of officers will be installed at the January 7, meeting.

A Jackson junior at the University of Mississippi and president of the college division of P. A. Y., many business and civic leaders from over the state will be invited to attend and participate as well as bring students from schools and colleges over the state. He especially urged professional men and women in the fields of law, government, business and education to attend the rally and bring student leaders.

**FURTHER LOSS OF COTTON ACREAGE FOR '63 COULD DAMAGE ECONOMY**

As an authoritative spokesman for American producers, Senator John C. Stennis of Mississippi warns that any further reduction in cotton acreage allotments could prove disastrous to small farmers and to the general economy as well. In a letter to Secretary of Agriculture Orville L. Freeman, the able Mississippian has expressed deep concern over the sharp reduction in the national acreage allotment for 1963. Senator Stennis reminded that the slash from 18,001,718 acres in 1962 to the 16 million acre minimum announced for 1963 is a substantial reduction and while any cut seriously affects the income of the agricultural economy, it inflicts its greatest toll on our smaller farmers - the group that takes a real beating in price and acreage reductions.

Senator Stennis cited that in the 1961 crop year, over 73.8 per cent of all Mississippi cotton farmers had allotments of 10 acres or less. He warned that any further reduction for this group would mean the difference between continuing or abandoning their farms.

"Small growers neither ask nor expect special privileges," Senator Stennis said, "but they are entitled to a fair chance to remain on the farm." Certainly a further cotton

Unusual to still be catching crabs on dead bait while fishing on the bottom. Crabs prefer bays and mouths of rivers and often enter fresh water in the warmer seasons.

Flashing spoons and spinner lures are attracting green trout. The water being real clear just now trolling with underwater baits is proving most effective. Trolling deep gets best results.

Speckles or weakfish as they are also called are salt water counterparts of our fresh water trout. They're fast, put up a creditable scrap and furnish plenty of sport for lots of fishermen. When striking, flashing spoons, darting plugs and lead jigs account for a large take. Live shrimp also are deadly, when you can get them. Jordan River, Wolf River and Bayou Caddy are excellent trolling spots.

The brilliant evening star is a symbol of many things to many folk. Mariners hail it as a good omen, for it usually forecasts a clear, calm night and smooth sailing. The shepherd tending his flock on a desolate hillside gratefully notes its appearance in the heavens, for its friendly light offers an intangible sort of companionship during his lonely vigil. To many, the star is representative of God's infinite power and wisdom.

Just as this star touches hearts in countless different ways, so may the Church bring to those in all walks of life, peace and comfort which lead to a happier, more fruitful pattern of life.

Let us make the Church our guiding light. We can brighten our lives if we accept the teaching of the Scriptures as guideposts along the pathway to future endeavors.

## HOME AGENTS NOTES

MARCIA P. HARRIS  
Home Demonstrator  
Yes it's a nice thing to have a company that can have "don'ts" in mind.

Don't be gloomy and over-sympathetic. Don't give your medical advice. Leave that to the qualified people. Don't make the patient feel inferior. Quit discussing the quality of his care.

Don't come into the sick room like a tornado. Don't take out your anger with you. Take a smile. If you say you'll be back, then keep your promise.

Don't be too inquisitive. Let the patient volunteer whatever information he wants you to have. Don't tell a sick person he looks marvelous - neither tell him he looks half dead. Be discreet.

**PLACING FOOD IN FREEZER**  
Where you place food in your freezer has a lot to do with how quickly it freezes.

Unfrozen food freezes quicker when you put it in the center of the freezing shelf of a cold freezer.

In freezers with cold shelves, food freezes faster when you put it directly on the first, second or fourth shelf.

In a cold wall freezer, the closer the food is to the wall, the quicker they freeze.

**FOOD FOR BIRDS**  
The children will enjoy making this simple outdoor Christmas decoration that provides food for the birds.

Force skewers or sturdy twigs into the base of the apple to form legs. In the stem end of the apple, place several small twigs of holly, cedar, mistletoe, pyracantha or other Christmas greens.

Make nicks in the apple with a knife and insert rice, raisins, small grain seeds, and bits of peanut butter.

Place the Calenig (Welsh for the birds) on a window ledge where you can watch the birds from indoors. Or, make several and place them at the edge of the terrace or on each doorstep.

## 'Miracle Baby' with Birth Defect Is Named March of Dimes Child

Jimmy Bogges' mother, Mrs. Shirley Bogges, reads a fairy tale to the 1963 National March of Dimes Boy, a victim of the birth defect known as open spine. She is a March of Dimes volunteer in her home town of Coy, Ark., because she wishes to encourage research "to learn why some children, like my Jimmy, aren't born perfect."

Five-year-old Jimmy Bogges of Coy, Ark., a "miracle baby" who has survived a constant battle against serious birth defects, has been named the 25th Anniversary March of Dimes Boy for 1963.

Jimmy, the son of Mr. and Mrs. James Bogges, was born with a birth defect known as spina bifida, or open spine. He underwent an operation when he was five days old to correct this condition. A few months later, it appeared that he also had hydrocephalus, or water on the brain. However, this condition has apparently arrested itself without need of surgery.

In spite of the fact that he also has defects in both the genito-urinary and digestive systems, Jimmy is a happy, inquisitive child who plays with his pets and his toys as eagerly as any other youngster his age. He walks with the aid of steel braces and wooden crutches. He looks forward to his nationwide tour scheduled for January, which marks the 25th anniversary of The National Foundation-March of Dimes.

His picture will be on millions of coin collectors, leaflets and school cards used in every county in the nation. He will also visit with a number of congressmen, senators, governors, mayors, screen stars, TV personalities and stage celebrities.

A winsome, intelligent lad, Jimmy was born in Panama City, Fla., Jan. 20, 1957. His parents, both natives of Arkansas, took him soon after to their home state to be nearer specialists and medical facilities there, so that their son could get the expert medical care he needed to survive.

"Jimmy is a symbol of the 250,000 children born each year in this country with significant birth defects. He is living proof that something can be done for seemingly hopelessly crippled children," said Basil O'Connor, president of The National Foundation-March of Dimes. Jimmy's mother, Shirley Bogges, who was a model before her marriage, today is a March of Dimes volunteer. One of the satisfactions she finds in this work is the hope it affords that research will find the reasons why some children are not born perfect, and then will find a way to prevent these tragedies.

The March of Dimes helped wipe out polio with the Salk and Sabin vaccines. I am certain that something can be done about birth defects.

"I am going to work as hard as I can to see that Jimmy continues to get the best possible medical care, and that funds are available for research, so that someday other mothers won't suffer the terrible shock that I did."

"Children like Jimmy will benefit most from expansion of the March of Dimes-supported nationwide network of clinical study and treatment centers which bring the most modern medical care to victims of birth defects, arthritis and polio. Today there are more than 50 of these centers. Our nation could easily use twice that number,"

James G. Turner, Oliver J. Cuevas, Warren Whitfield, Mrs. Ethel Lee, Leroy Cuevas, Mrs. W. P. Lee, C. T. Favre, Mrs. Carl Heitzman, Scott Eustis, L. I. Fletcher, John C. Fricke, Mrs. Charles Banister, and Mrs. Roy Weems.

Miss Judy Ann Copponex, daughter of Mr. and Mrs. Louis Shannon Copponex of Gulfport, Miss., became the bride of John Hynes Horne, son of Dr. and Mrs. Mark Daniel Horne of Bay St. Louis, Saturday morning at a 11 o'clock nuptial Mass in St. John the Evangelist Catholic Church, Gulfport.

The Rt. Rev. Monsignor Thomas E. Williams performed the double ring ceremony before an altar banked with white chrysanthemums, stock and palm fronds. Lighted candelabra were on either side of the main altar.

Baskets of similar flowers trimmed the center aisle.

Escorted to the altar by her father, the bride wore a candlelight satin gown fashioned with fitted bodice of Chantilly lace and brodered with seed pearls and long fitted lace sleeves. The full skirt fell into a cathedral train, and a flat bow trimmed the waistline.

Her finger tip veil of illusion fell from a crown of seed pearls and she carried a bouquet of white gardenias.

Miss Sharon Ann Copponex, was her sister's maid of honor.

Bridesmaids were Misses Bonnie Lynn Silva, New Orleans; Catherine Ann Lund, Crowley, La.; Benice Francine Curro, Gulfport; Elizabeth Ann Kreiger, New Orleans; and Margaret Patricia Horne, sister of the groom, Bay St. Louis.

They wore emerald green peau de soie dresses fashioned with bell skirts with a flat bow of the material at the back. Their hats were matching pill boxes with veils of illusion, and carried balls of Christmas greens and holly leaves suspended from their wrists with golden ribbons.

Mark Daniel Horne Jr. of Bay St. Louis, was best man. Groomsmen were Harold A. Kubel, New Orleans; William A. Jewett Jr., cousin of the groom, Dr. Edward M. Socola, Boris B. Haase Jr., all of New Orleans and James Robert Fister, brother-in-law of the groom, Atlanta, Ga.
